carried on chiefly in the villages of Cabotville and Chicopee Falls. The United States Armory, the largest of its kind in the Union, is located here. It employs about 250 men, and turns out annually from 10,000 to 15,000 muskets. Springfield is located at the crossing of the Western and the Connecticut River Railroads, which makes it an important thoroughfare and a heavy merchandize depot. The Western R. R. Office is located here,

## UNITED STATES ARMORY, SPRINGFIELD.

On the 2d day of April 1794, Congress passed an act authorizing the erection of two National Armories, one to be located in Springfield, Mass. The other to be located at Harper's Ferry, Virginia.

Within the following year (1795,) the Armory in Springfield was in successful operation, and finished 245 Muskets during the year.

The importance and absolute necessity which experience has shown for these Institutions, and the extreme difficulty in supplying their deficiency by Contract establishments, particularly in time of War, together with the confidence and merit they have attained from the whole country, has been so fully appreciated by Congress that they have continued to grant an appropriation *annually* to each of them.

The number of Arms with their appendages manufactured at the Springfield Armory from the commencement of its operations to the 30th of June—1846—is as follows, viz.

Muskets	complete,	.	.	500.706
"	(for Cadets,)	"	.	802
Rifles	"	.	.	250
Carbines	"	.	.	1234
Pistols	"	.	.	1.012

Also a large number of arms have been repaired that were damaged during the Wars.

In the year 1842 the *Flint Lock* was abandoned, and the *Percussion Lock* adopted, since which time, no arms

have been made with *Flint Locks*, and it is confidently believed that the arms made at this Armory *since the adoption of the Percussion Lock*, are not equalled in any other establishment in the world.

The expenditure for the Manufacture of arms and Machinery for the year ending June 30, 1847, was \$172,537, 65. The fabrications during the year were as follows viz.

14,300 Muskets	at	\$10,56 +	\$151,039,10
201 Musketoons	"	11,00	2,211,00
26,046 Screw drivers	"	0,17	4,427,82
2,063 Spring Vises	"	25 cts	515,75
19,726 Wipers	"	10½ cts	2,071,23
2 009 Ball Screws	"	15 cts	301,35
6,338 Cones (extra)	"	8 cts	507,04
50 Vent picks	"	2 cts	1,00
7 Model and Sample arms			609,65
1,097 Arm Chests	at	3,00 }	3,315,00
24 Packing boxes		1,00 }	
Sundry parts of arms for issue			1,299,04
28 Machines and turning Engines			6,239,67

\$172,537,65

About 265 men are constantly employed in the various branches of manufacture.—The most of them are employed by the piece—the Components of the Musket being divided into 426 branches or operations to which a price is fixed for performing the labor.

The following amount of Stock was consumed during the past year viz.

Iron	401,712 pounds
Steel	46,672 "
Coal, Anthracite	1,268,405 "
do. Char.	66,320 bushels
do. Pit,	902 "
